The research report titled “Analysing European ICT job profiles, ICT competencies, and structural modules for European Evaluation Framework for Computing Education and Training (EEFCET 2020)” was published by P. Kaczmarek and F. Vandamme from BIKEMA-BELGIUM. Concerning the design of the European Evaluation Framework for Computing Education and Training (EEFCET 2020), a modular structure is suggested which will allow for multidimensional evaluation. A module for ICT competencies evaluation is described in more detail, based on the CEN ICT competencies standard.

The leader and co-leaders each Work packages started preparations for 6th Management Meeting of ETN FETCH project. The host will be P64 Selcuk University TURKEY. The meeting will be held on 03-04 March 2016.

The leaders and co-leaders of 9 work packages of the project have implemented activities for the tasks. All the partners participated dissemination and exploitation of project outcomes.
