Second draft version of Report of Recommendations for future digital curricula in Computing Education and Training 2020 by Dr. Karl O. Jones, Dr. Rebecca Bartlett, Colin Robinson and Dr. Princy Johnson from Liverpool John Moores University has been published. The aim of this report is to provide a set of recommendations regarding the future of digital curricula for Computing Education 2020. The recommendations focus not on the technological aspects nor on the approach to a digital curriculum in terms of course design, instead the report considers the peripheral aspects to designing and delivering a digital curriculum. These areas are the key to producing a successful course.

Sixth Project Meeting preparation and E-Learning'16 paper submissions:

The e-Learning'16 International Conference is organized according to the Workplan of the European Thematic Network FUTURE EDUCATION AND TRAINING IN COMPUTING. The Conference OBJECTIVE is to intensify the information exchange of the results in theoretical research and practical developments in the field of the e-Learning and mLearning. e-Learning'16 is organized under the patronage of the EUROPEAN COMMISSION - Education, Audiovisual and Culture Executive Agency and John Atanasoff Union of Automation and Informatics. E-learning'16 will be organised in between 08-09 September 2016, Slovak University of Technology, Bratislava, Slovaki. Six project meeting with the partners will take place during the conference as well. Thus together with host of this organisation an intense work have been implemented to organise international conference, workshop and project meeting under the leadership of the project coordinator. All the partners are asked to submit scientific manuscript for E-learning'16. The deadline for submitting manuscript was over at 27.07.2016.
