Computing Education and Training 2020 (ESFCET 2020-v1.2) and
European Evaluation Framework for Computing Education and

*ESFCET 2020 defines three strategic objectives, namely: (SO- 1)
Improving ICT education content quality by curricula
improvement, (SO-2) Stimulating novel educational modalities,
didactic approaches and models, and (SO-3) Implementing an ICT

European ICT employers. Each strategic objective has a certain
number of priority areas associated with it, which detail both existing
actions to continue working on and new actions to be started.*

*In EEFCET 2020, we address macro and micro evaluation, we focus
mainly on post-use evaluation and at the same time we try to support
pre-use and in-use evaluation by introducing phases into our
evaluation framework, we support our stakeholders in summative
and formative evaluation of the curricula in attention.*
